

*"We help Habitat for Humanity families nourish their bodies and new beginnings by providing the essential tools needed for the heart of their new home-
The Kitchen."*

We are a REALTOR® based program working to provide all Habitat for Humanity homes built on the island of Hawai'i in 2013 and beyond with kitchen packages. We believe that the kitchen is the heart of the home and we strive to provide each new Habitat for Humanity family with a package of goods that will allow them the opportunity to enjoy time with friends and family in their new space!
